Ethyl – Hexadecyl-Dimethyl Ammonium ethyl sulphate (Mecetonium ethylsulphate) 0.2% w/w
(with emollients, moisturizer, permitted colour and fragrance)

Steriguard

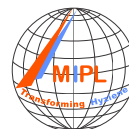

Steriguard is an alcohol based surgical hand sanitizer with excellent effect and reliable antimicrobial properties. The product is widely used and accepted by hospital, pharma & food industries.

Persistent And Residual Activity

Steriguard formulation has good residual and persistent qualities which provides penetration in the skin therefore allows the active ingredient to form a barrier against micro- organisms on the surface of skin.

Quick Action:

Steriguard kills more than 99.999% microorganisms within seconds.
